

Definition

A Building Permit is required for any deck, regardless of the height from natural ground level. However, only proposed decks raised more than 500mm above natural ground level will require certification by a Structural Engineer, regardless of the proposed construction material.

Frequently asked questions

Do I need a Building Permit ?

A Building Permit is required for any deck, regardless of the height from natural ground level. However, only proposed decks raised more than 500mm above natural ground level will require certification by a Structural Engineer, regardless of the proposed construction material.

How long does it take to get a Building Permit?

The Building Act 2011 sets time frames in which the Shire has to assess and determine an application for a Building Permit. The applicable timeframe depends on whether the Building Application is Uncertified or Certified. It is important that you are aware of the allowed time frames prior to lodging your application and that your application documentation is complete.

Shire of Capel reserves the right to request additional information if it is deemed necessary following a detailed assessment of the application. Should further information be required in order to assess the Building Application, the applicant may be given up to 21 calendar days in which to provide the outstanding information. If the information is not received within the 21 days, the application may be refused unless mutual consent has been granted for an extended period.

Uncertified Building Applications:

An Uncertified Building Application can be submitted for Class 10 structures such as a deck.

The Shire has up to 25 business days from the date of lodgement to assess the application and issue a Building Permit. The required Certificate of Design Compliance will be issued by the Shire as part of the application process.

Certified Building Applications:

A Certified Building Application can be submitted for all Class of structures.

Prior to lodging a Certified Building Application to the Shire, a private Building Surveying Practitioner would need to be engaged to issue a Certificate of Design Compliance.

The Shire has up to 10 business days from the date of lodgement to assess the application and issue a Building Permit.

How long until my permit expires?

A Building Permit is valid for two years from the date on which it was granted.

If more time is required to complete the building works, you can apply for an extension of time up to a further 6 months by making a formal application and paying the prescribed fee.

What happens when I have completed my building works?

The nominated Builder on the Building Permit must submit a Notice of Completion BA7 form to the Shire within 7 days of completing the prescribed building works.

Building Application Checklist – BA2 Uncertified Application

Approvals and Forms	Further Information	Attached	
		Yes	N/A
Development Approval	Development approval may be required prior to lodgement of a building application. Planning Information Sheets are available from the Shire's Website www.capel.wa.gov.au or from the front counter at the Shire's Administration Office. Please contact the Shire of Capel's Planning Department to ascertain if development approval will be required for your application.	<input type="checkbox"/>	<input type="checkbox"/>
Health Approval	Health approval may be required prior to lodgement of a building application. Information Sheets are available from the Shire's Website www.capel.wa.gov.au or from the front counter at the Shire's Administration Office. Please contact the Shire of Capel's Health Department to ascertain if there are any health requirements for your application.	<input type="checkbox"/>	<input type="checkbox"/>
